

Encuentro del amor consciente

MARCH 22, 2025, GREAT EVENT OF THE GATHERING OF CONSCIOUS LOVE

We are at the dawn of the beginning. The heart of our mother earth burns, her children with her. Fire calls us, water grants us. It is the time of the rebirth of human consciousness, its reunion. We are ready to move on to the next stage of humanity, the one where the living beings that inhabit it live in peace after the fire of transformation.

Everything must be healed and is in the process of healing. We must allow ourselves to enter the moist womb of rebirth, of resurgence to our fullness and the potential for harmony that is creation, the cosmos, nature.

We heed the prophecies of the native peoples of Abya Yala, who knew time and had already planted our destiny, that of fullness, harmony, abundance and balance. To reach that destination, we should go through the present, which in these times, this generation, ends; the present of chaos, experimentation with imbalance, the acquisition of the knowledge of extremes.

We hit rock bottom and it is time to re-emerge. The munaytinku is the call from full love, the love of all that lives, which is freedom, the path of nature. The meeting of souls, of the rainbow tribes, to incarnate in a tribe, in a clan, from the four directions, from the love and connection that is lived beyond the here and now.

It is the time to meet and unite, in a moment, a place, to form the medicine circle, the council, of those who will light the new fire, carry it and distribute it throughout the body of our mother earth.

THE MUXUQ NINA TRIBE OF THE UNION OF HEARTS OF THE EAGLE AND THE CONDOR CALLS:

To every being who is in the call of rebirth and resurgence of his being and his life, willing to get closer to where he wants to be and get away from where he does not want to be. To every being who is ready to live his full healing and expansion. Whoever is ready to leave

behind the obsolete life, work, slavery, lack, toxicity and makes the responsible and forceful decision to get closer to the solution of all this, which will bring him closer to a new tribe, a new family, and a new place, community, niche in nature, home to build.

The times of attending the ceremony and returning to resolve our affairs in the city are about to end. This is the ceremony, this is the meeting from which we do not return, where we stay in the world of health, of union, of nature, where we begin and initiate our new life, our journey together, our caravan, our circle and community.

From the new fire we do not see the need for great preparation or previous experience to participate, what counts is a willingness and decision to act and to responsibly surrender to the decision that is made. The experience and knowledge is shared among all, and we walk together.

The only thing that is needed is to allow yourself enough self-love.

DETAILS OF THE CALL

The Muxuq Nina Tribe of the Union of Hearts of the Eagle and the Condor was created as a follow-up to the call of the prophecies of the union of the eagle and the condor, the rainbow tribes and the prophecy of Tiwanaku. It was created in the year of the Gregorian calendar 2012 and in 2020 the Medicine Circle was created, from where the teachings, guides and healings necessary to form the tribe and establish the villages and power centers from where they operate are imparted.

You can learn more about the tribe and the Muxuq Nina temple on the tribe's website, circulodemedicina.com

The Muxuq Nina Tribe offers assistance in the process of preparation, healing and integration to a free tribe, the seed of the new world that is emerging and that has planned several settlements or villages, among them, the most important one, in the heart of the Amazon, El Gran Paititi, from where a village capable of housing hundreds of people in total abundance, freedom, nature and sovereignty is currently being built. Other villages in different places in Abya Yala are also in the process of being formed in union with the Muxuq Nina.

As part of the training and healing process that is the Medicine Circle, which is largely carried out remotely and globally through the digital library, the time comes for the great face-to-face meeting and the healing and activation ceremonies of the tribe that must be

carried out in a face-to-face union, in turn that they will be recorded and shared digitally for future members of the tribe.

The munaytinku meeting calls us to open our munaymuyu, our lower center of connection with the earth and physical and sexual love. It calls us to heal and release our deepest schisms of repression and disconnection; to reconnect with the intensity of being alive, to unleash the sacred serpent of creation and creativity, necessary to unite in full love and consecrate our union. It is the union of couples, of man and woman, masculine and feminine, our loving encounter to create the loving unions necessary to create the new families that will make up the tribe and inhabit the villages of freedom.

The activity will take place in the Mexican Southeast, exact locations to be revealed, at the next inferior conjunction of Venus with the Sun, in the ninth moon of the current solar cycle. The Gregorian date for this event is March 22, 2025. This date as a central reference to the celestial event that will accompany us, the exact dates of the activities to be carried out will be announced once the interested party registers.

The activity will be carried out in three phases:

OPENING OF YACHAY

In this phase, the first circles of knowledge and recognition of the attendees and those interested in becoming part of the tribe will take place while an opening is made to the higher center of the mind and consciousness.

In this phase, the workshops-courses of the section of the medicine circle called the boat for liberation and sovereignty will be held, the central one being the one pillars of sovereignty. It is recommended to attend this phase to have taken the course on Natural Law, available free of charge on the website.

Also in this phase, the Toltequity workshops and the New Fire initiations will begin, of the Allin Yachay section.

OPENING OF THE LLANKAY

In this phase, the medium and deep initiations of the New Fire take place. The healings continue and the dialogues and dances begin where the precedents for the formation of the new full unions are given.

The first two phases will last about 1 week in a location in nature and in contact with water (lagoon).

The first two phases are suitable for those who wish to get closer to the tribe and become part of it, receive and be part of the blessings, knowledge, initiations and healings that are carried out, but do not wish to remain in a definitive union after the activity and do not wish to join the caravan or one of the villages immediately.

The tribe offers complete freedom and diversity, so there is something for everyone.

OPENING OF THE MUNAY

This phase will be carried out in another location in contact with the mother sea. A more intimate location for a smaller group. In this phase, workshops on Knowing How to Love and Sacred Sexuality will be given. The teachings given orally in this phase will be recorded and shared digitally with the other non-presential members of the tribe. The in-person attendees will be those who, after the previous phases, have expressed their desire, availability and commitment to fully integrate into the tribe and its different projects.

The phase will last one week. In each phase, it will be determined how the members will integrate to give continuity to the tribe and its projects.

HOW TO PARTICIPATE

Currently, the members of the tribe do the work to organize and carry out the event, have a place and cover the costs of lodging and food. Participation will have a cost to cover the services offered, which will be distributed equally among the participants. We will all participate in the community tasks of cooking and administration of the spaces and activities.

A registration fee of 100USD is required to ensure your participation. Three months before the date, in January 2025, registrations will close, attendance will be determined, and the different options and costs will be given to cover the expenses of the activity. Our goal is to keep the cost as low as possible. On this date and depending on the number of attendees, the accommodation option and the phases in which they choose to participate, the total cost will be given, from which the 100USD registration fee will be deducted. For logistics reasons, the total amount must be collected two months before the start of the activity.

To participate, you can contact us with your letter of intent at the following email:
